

TRANSITIONS® XTRACTIVE® LENSES

- 1 With a hint of tint, *Transitions XTRActive* lenses are always working to help reduce _____ from harsh indoor light. They reduce exposure to harmful _____ light both indoors and outdoors.
- 2 *Transitions XTRActive* lenses protect your eyes from the brightest _____ outdoors, and are extra dark, even in the _____ climates.
- 3 Due to a special blend of photochromic dyes, *Transitions XTRActive* lenses work behind the windshield of a car.
- 4 *Transitions XTRActive* lenses should be recommended to those who:
- TRUE
- FALSE
- A _____
- B _____
- C _____

APPLY WHAT YOU HAVE LEARNED

Talk to your customers about their work and hobbies so that you can determine the lens options that best fit their lifestyle needs. If your patients answer “yes” to any of the following questions, recommend *Transitions XTRActive* lenses to them.

DO YOU SPEND A LOT OF TIME OUTDOORS, EITHER FOR WORK OR FUN?

ARE YOUR EYES ESPECIALLY SENSITIVE TO LIGHT, EVEN INDOORS?

DO YOU SPEND A LOT OF TIME IN THE CAR?

DO YOU WANT A LENS THAT GETS EXTRA DARK OUTSIDE?

ARE YOUR EYES BOTHERED BY HARSH INDOOR LIGHT?

Tell them “*Transitions XTRActive* lenses are always working. They have a hint of tint to protect your eyes from harsh light indoors. They are extra dark outdoors to help protect your eyes from the brightest sun. They even darken behind the windshield of a car to help protect your eyes while driving.”
